

Vintage mini Christmas Ornaments

Supplies Needed:

- 6 1 1/2" wooden Circles
- a 1 1/2" circle punch or a pair of scissors
- 1 small bottle of decopauge
- 1 small paint brush
- Ivory paint
- black floral wire
- Crop-a-dile eyelet setter (WeR Memory Keepers)
- 6 small eyelets
- 1 small bottle of clear glitter
- optional: 1 small box if you'd like to create a storage container and coordinating patterned paper

Directions:

Paint the edges of the wooden circles with ivory craft paint and let dry. Use the circle punch to cut out the shapes below (or use scissors to cut by hand). Lightly brush each wooden circle with decopauge glue and smooth very carefully. Brush a thin layer over the top and repeat this step until it has the desired finish. When dry, lightly brush the edges with glue and roll into the clear glitter until the edges are completely covered. When dry, use the Crop-a-dile to punch and set an eyelet at the top of each ornament. Thread the black floral wire through and twist into a hanger. Decorate the storage box with coordinating pattern paper.
